intro:  How To Make A Cheap Pull-Pin SmokeBomb (=New=)
How to make a smokebomb from common,legal, and easy to find things!
Btw this is my idea, and I was the first to post this, hope you all enjoy!

step 1: Materials
Most of the things you will need.

Ping-Pong Ball
HotGlue Gun
Pull Pop
Sparkler
FireWork Cap
Knife
Scissors
Bottle
Paper

Image Notes
1. HotGlue Gun
2. Glass Bottle
3. FireWork Cap (can find on any firework making sites)
4. Scissors+Knife :P
5. Pull-Pop You can find'em in kmart around 4thJ time.
6. Ping-Pong Ball
7. Sparkler :)
8. Paper

**step 2: Sparker Tube Pt.1**
Cut a small paper square, then wrap it around the sparkler, to make a clean tube shape, slide it off the sparkler and tape.

**Image Notes**
1. Sorry, my hot-glue is blue :P

**step 4: Sparker Tube Pt.3**
Pull apart your sparkler, and take out all the flash powder on a piece of paper, then make a small crease in the middle of the paper for easy pouring.

**step 5: Sparker Tube Pt.4**
Now, get your pull-poper and cut the end string off. Hot-glue the pull-poper in the tube, making sure the string is facing out.

**step 6: Sparker Tube Pt.5**
Take your flash powder, and GENTLY pour it in the tube. Now take a small piece of paper from your sparkler cover and put it in the opening where you poured the powder in.
**step 7: Ping-Pong Ball**  
Take your ping-pong ball and cut it into small pieces.

**step 8: SmokeBomb Jar Set-Up Pt.1**  
Hot-Glue your Pull-poper set-up into your bottle. Pour your ping-pong ball bits into the jar.
step 9: SmokeBomb Jar Set-Up Pt.2
Add a small amount of flash powder to the jar and mix it up with the ping-pong bits.

step 10: Add Cap, And Customize!
Add the cap and poke a small hole for the smoke to go out of, and of the string to go through. Add some ducktape for safety, and you're all set!
